

Preparing Animal Waste and Bedding Contaminated with Radioactive Material for Collection

Standard Operating Procedure

Revision Date: 08/16/23

Labeling Tag

All bags of animal waste and bedding contaminated with radioactive material must have a completed "CAUTION RADIOACTIVE MATERIAL" tag attached to them.

Supplies Available through HMM

To order the following supplies, contact HMM at (734) 763-4568:

- Yellow bags
- Labeling tag

Procedure: Preparing Animal Waste and Bedding Contaminated with Radioactive Material for Collection

- 1. Place cage/pen waste (animal excreta and bedding) in the yellow leak-proof plastic bag provided by HMM.
- 2. Seal the bag tightly with "Caution Radioactive Material" labeling tape.
- 3. Complete and attach the "CAUTION RADIOACTIVE MATERIAL: RADIOACTIVE ANIMAL OR PATHOLOGICAL WASTE" tag on the bag with the following information:
 - RADIONUCLIDE(S)
 - ACTIVITY (mCi)
 - AUTHORIZED USER/INVESTIGATOR'S NAME
 - CONTACT PERSON AND PHONE NUMBER
 - DATE RADIONUCLIDE(S) ADMINISTERED
- DATE WASTE PLACED INTO FREEZER
- DESCRIPTION OF WASTE (SUCH AS DOGS, RATS, MICE, BEDDING, BLOOD)
- COMMENTS
- 4. Place the bag in a freezer designated for animals containing radioactive material.
- 5. Call HMM at (734) 763-4568 for collection.

NOTE: Hazardous Material Management will collect and dispose of all forms of radioactive waste.
