

TABLE 2**MAXIMUM PERMITTED DAILY ACTIVITY EXCRETION***

RADIOTOXICITY CLASSIFICATION	HOUSED IN GENERAL ANIMAL FACILITIES	HOUSED IN ISOLATION ROOMS
	Care provided by ULAM personnel	Care provided by Authorized User
High Toxicity	< 100 μ Ci per cage	\geq 100 μ Ci per cage
Moderate Toxicity	< 100 μ Ci per cage & < 500 μ Ci per room	\geq 500 μ Ci per room
Low Toxicity	< 5 mCi per cage & < 10 mCi per room	\geq 50 mCi per room

*Check with Radiation Safety Service for radiotoxicity classifications and permitted quantities of radionuclides not listed above. Limits may be changed by RSS as necessary to maintain personnel radiation exposures as low as reasonably achievable, or to accommodate particular circumstances on a case-by-case basis.
