Used for the collection of sharps.  
Available in increments of 1.

# Drums Available From OSEH

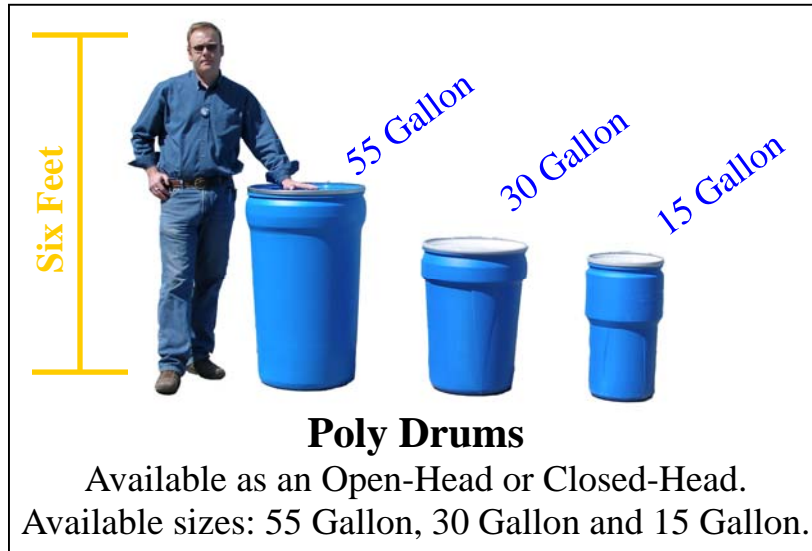

All sizes of metal and poly drums are available in two types, open-head and closed-head.

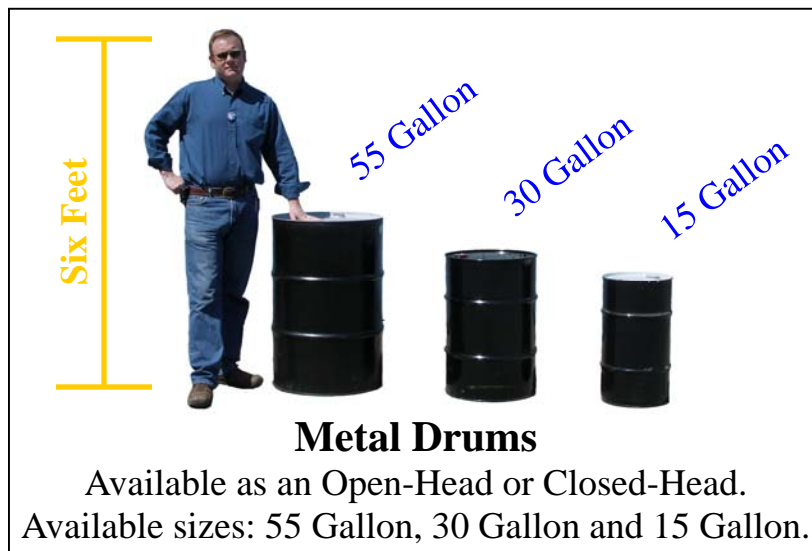

**Open-Head-** The top section of the drum is removable. This drum is used for solids.

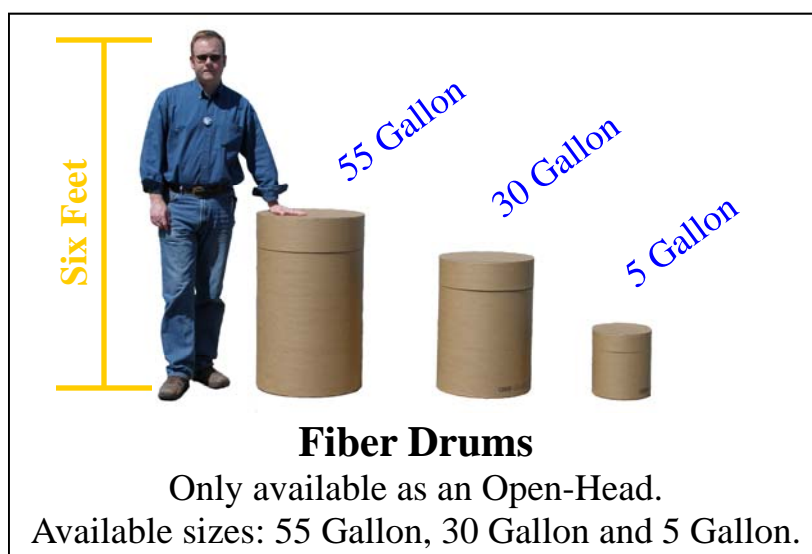

**Closed-Head-** The top section of the drum is not removable, and material is added through a hole in the top of the drum. This drum is used for liquids.

A photograph showing three blue poly drums of different sizes: 55 Gallon, 30 Gallon, and 15 Gallon. A man in a blue shirt and jeans stands next to the 55-gallon drum for scale. A yellow vertical line on the left indicates a height of six feet. The drum sizes are labeled in blue text above each drum.

**Poly Drums**  
Available as an Open-Head or Closed-Head.  
Available sizes: 55 Gallon, 30 Gallon and 15 Gallon.

A photograph showing three black metal drums of different sizes: 55 Gallon, 30 Gallon, and 15 Gallon. A man in a blue shirt and jeans stands next to the 55-gallon drum for scale. A yellow vertical line on the left indicates a height of six feet. The drum sizes are labeled in blue text above each drum.

**Metal Drums**  
Available as an Open-Head or Closed-Head.  
Available sizes: 55 Gallon, 30 Gallon and 15 Gallon.

A photograph showing three tan fiber drums of different sizes: 55 Gallon, 30 Gallon, and 5 Gallon. A man in a blue shirt and jeans stands next to the 55-gallon drum for scale. A yellow vertical line on the left indicates a height of six feet. The drum sizes are labeled in blue text above each drum.

**Fiber Drums**  
Only available as an Open-Head.  
Available sizes: 55 Gallon, 30 Gallon and 5 Gallon.

Waste supplies can be ordered by contacting OSEH at 3-4568. Small waste containers are delivered in 3-4 days by Fisher Scientific. Drums are delivered within 7 days by OSEH staff.
