05/02/2022 A handwashing sink or group of adjacent handwashing sinks that is provided with disposable towels shall be provided with a waste receptacle as specified under ¶ 5-501.16(C).

A dedicated garbage can for paper towel waste after hand washing is not being kept at the back hand sink across from the walk-in cooler. Keep a small garbage can at the hand sink at all times.

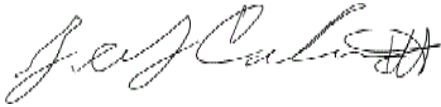

Closing Comments:

2-3 deep lexan tubs of thawed/thawing commercially packaged marinated chicken and beef pieces were observed in the walk-in cooler with (pull) date marks of 4/22 (or 11 days ago) and it was assumed these tubs had been misdated or old labels not changed with more recently pulled frozen packages of marinated chicken and beef pieces in lexan tubs dated 4/28. However, these foods are not in ready-to-eat form and are not bound by the 7-day shelf life for TCS RTE foods. The tubs labeled 4/22 were relabeled 4/28 at the time of the inspection upon request, but this corrective action was unnecessary and may confuse the proper stock rotation of the commercially packaged marinated raw meats based on FIFO. No violation occurred and the corrective taken was not needed.
