|--------------------|--------|---|------------|-----------|

This Facility was inspected by Nonda Mihos, a representative from University of Michigan, on 04/21/2022 to determine the level of compliance with the Michigan Food Law, P.A. 92 of 2000, as amended.

Closing Comments:

Establishment is temporarily closed and will reopen again for fall 2022 semester and routine inspection will be conducted at that time. In addition, establishment had flood around ice machine where sprinkler head (located above ice machine) was hit when hot work was being performed on ice machine (see attached photos). If ice machine is able to be reused, then it must be thoroughly cleaned using wash, rinse, and sanitize method. Floor must also be cleaned to sight and touch.

UM EH&S is now listing routine inspection reports for all campus food establishments on-line. Reports can be viewed at <http://ehs.umich.edu/campus-life-safety/food-safety/inspections/>
