</table>

05/11/2022  
Food shall be protected from cross contamination by storing raw animal food below or away from ready to eat food and by storing raw animal foods based on final cooking temperature (ready-to-eat foods above seafood/fish above whole cuts of pork/beef above ground beef above poultry/eggs).

Walk In Cooler - Observed partially cooked brats stored above ready to eat chicken on the same rack in the walk in cooler.

Correct by storing raw animal foods below or away from ready to eat foods and storing raw animal foods based on final cooking temperature. Correct immediately.

CORRECTED ON SITE - Partially cooked brats were moved to be stored underneath ready to eat chicken in the walk-in cooler.
Critical / Non-crit   Repeat  Violation Description/Remarks/Correction Schedule  Correct By  Corrected

Commissary Kitchen - Observed partially cooked meats, including brats and chicken, stored on racks in the walk in cooler without the proper labels.

Correct immediately by labeling rack of partially cooked meats as raw inside walk-in cooler.

CORRECTED - All partially cooked foods were properly labeled as raw.

4-501.114 05/11/22 05/11/22
Commissary Kitchen Cook Line - Observed 0 ppm of quaternary ammonia in red sanitizing bucket at cook line.

Quaternary ammonia shall be between 100-400 ppm in red sanitizing buckets.

Item(s): Quaternary ammonia solution
Problem(s): Not immersed in A concentration specified on manufacturers label
Correction(s): Provide

Quaternary ammonia shall be between 100-400 ppm in red sanitizing buckets.
Correct as soon as possible by obtaining fresh quaternary ammonia sanitizing solution (located in warewash area) and verifying with quaternary ammonia test strips that quaternary ammonia concentration is between 100-400 ppm.

CORRECTED ON SITE - Fresh quaternary ammonia sanitizing solution was obtained and verified with test strip to be between 100-400 ppm.

| Item(s): | In house prepared ready-to-eat potentially hazardous food(s) |
| Problem(s): | Without date of consumption marking |
| Corrected By: | 05/25/2022 |

Potentially hazardous foods stored longer than 24 hours shall be date marked with use by date no greater than 7 days from preparation.

Correct immediately by properly date marking foods that will be stored for longer than 24 hours with either preparation date, use by date, or range of dates that is not to exceed 7 days from preparation date. Any remaining food at the end of 7 days must be discarded.

CORRECTED - All food that is stored for longer than 24 hours was properly date marked.

| Item(s): | Dish machine wash solution temperature |
| Location: | dish machine(s) |
| Problem(s): | Less than 160 degrees F For hot water sanitizing machine Single tank, conveyor, dual temperature Single tank, conveyor, dual temperature |
| Correction(s): | Repair to provide temperature stated above. |
| Corrected By: | 05/25/2022 |

Wash temperature for a single tank, conveyor, dual temperature machine must be at least 160 degrees F.

Warewash Machine - Observed wash temperature with at 150 degrees F.
Correct as soon as possible by repairing the dish machine to achieve wash temperature of at least 150 degrees F.

05/11/2022  Wash temperature for a single tank, conveyor, dual temperature machine must be at least 160 degrees F.

Warewash Machine - Observed wash temperature with at 150 degrees F.

Correct as soon as possible by repairing the dish machine to achieve wash temperature of at least 160 degrees F.

05/25/2022  CORRECTED - Wash temperature was at 160 degrees F.

Item(s): Food-contact surface(s) equipment
Problem(s): Soiled
Correction(s): Keep clean.

05/11/2022  Food-contact surfaces of equipment shall be clean to sight and be kept free of accumulation of debris and grease.

Observed the following food-contact surfaces of equipment throughout the facility in need of cleaning:

1) Commissary Kitchen - Bottom layer of shelving, where pots/pans are stored with food-contact surface in contact with shelving unit, has clinging dust/debris.

2) The screw-driven drain plug at the tilt skillet on the back cook line was observed soiled with food matter on the plug surfaces and other internal surfaces. The skillet was otherwise clean and appeared ready-to-use. Remove and clean the drain plug after each use.

3) Observed two stainless steel prep table work surfaces soiled with dried food matter and no cook staff working at either station. Two kitchen staff were working at another prep table and a request was made to have them clean and sanitize both work stations. One work surfaces was being cleaned and sanitized as the inspection was completed.

4) Observed two mixers, a KitchenAid and a Centaur, with food debris on the back splash gaurds and on the underside of the machines above the mixing bowls.

Correct immediately by cleaning the above food-contact surfaces to sight and touch and maintaining them clean at all times.

05/25/2022  CORRECTED - All food contact surfaces listed aboved were clean to sight and touch upon reinspection.

(A) A HANDWASHING SINK shall be maintained so that it is accessible at all times for EMPLOYEE use and used for no other purpose. (Pf)
(B) An automatic handwashing facility shall be used in accordance with manufacturer's instructions. (Pf)
Item(s): Handwashing sink(s)  
Location: hand wash sink(s)  
Problem(s): Not easily accessible Items stored in front of In front of In front of  
Correction(s): Remove items from handsink. Do not store items at handsink.

05/11/2022  
A hand washing sink shall be kept clean, used only for hand washing and kept accessible at all times. In addition, items shall never be placed inside of or in front of a hand washing sink.

Observed the following hand washing sinks with items stored either in front of or inside of them, which makes them inaccessible:

1) Warewash Area - Broom and dust pan were stored in front of hand washing sink.

Correct immediately by keeping hand washing sinks clean, easily accessible at all times, and only use hand washing sinks for hand washing purposes.

CORRECTED ON SITE - Broom and dust pan were moved to make warewash area hand washing sink easily accessible.

05/11/2022  
A hand washing sink shall be kept clean, used only for hand washing and kept accessible at all times. In addition, items shall never be placed inside of or in front of a hand washing sink.

Observed the following hand washing sinks with items stored either in front of or inside of them, which makes them inaccessible:

1) Warewash Area - Broom and dust pan were stored in front of hand washing sink.

Correct immediately by keeping hand washing sinks clean, easily accessible at all times, and only use hand washing sinks for hand washing purposes.

CORRECTED ON SITE - Broom and dust pan were moved to make warewash area hand washing sink easily accessible.

Closing Comments:  
All priority/priority foundation violations have been corrected.
