University of Michigan Face Covering Policy for COVID-19

Updated May 7, 2021

Research shows that transmission of COVID-19 is greatly reduced, and lives are saved when all individuals wear face coverings while in public. Because many cases of COVID-19 are mild or asymptomatic and COVID-19 can be transmitted days before an individual with the virus is symptomatic, the community is best protected when all individuals mask up. It is the shared responsibility of the entire U-M community to protect not only their health but the health of those who are most vulnerable for serious illness and death from COVID-19.

Face coverings will help to slow the spread of the virus and are part of a multi-layered approach for COVID-19 prevention. Other preventive measures – including getting vaccinated, physical distancing, frequent hand washing, routine disinfection of high touch surfaces, and minimizing the duration of contact time with others -- need to be maintained even while wearing a face covering. As our community vaccination rates increase, we expect masking rules to adjust as well. We continue to encourage everyone to get vaccinated.

U-M requires all students, staff, faculty, and visitors (including those that are vaccinated) to wear a face covering that covers the mouth and nose on U-M property (including the Ann Arbor, Dearborn and Flint campuses as well as properties off campus). This includes when inside buildings, on U-M transportation, participating in organized contact sports, and when outdoors in gatherings of 100 or more.

Many types of face coverings are acceptable but must be made of tightly woven cloth or other multi-layer absorbent material that closely covers an individual’s mouth and nose. They should have two or more layers of washable, breathable fabric, and fit snugly against the face without any gaps. The use of a face shield as a substitute for a face covering is not allowed nor is the use of any face covering with an exhalation valve as supported by the Centers for Disease Control and Prevention.

Exceptions where a face covering is not required include when you are:
(1) indoors in a single enclosed private office with your door closed or your assigned residence hall room/suite or apartment.
(2) eating or drinking but still maintaining social distance (at least six feet of physical separation between yourself and others).
(3) alone in a private motor vehicle or utility vehicle used for University business.
(4) A child between 2 and 4 years old, should try in good faith to wear a mask when participating in gatherings and under the age of 2 years, masks are not required.
(5) someone who is unable to remove a face covering without assistance.
(6) required to wear assigned respiratory protection for the job tasks you are performing.
(7) granted a reasonable accommodation under the Americans with Disabilities Act (ADA). For information on requesting such accommodations, please contact the Office for Institutional Equity.
(8) Outdoors in gatherings of less than 100 people.
(9) swimming
(10) involved in an activity, including certain types of instruction, where wearing a face covering may be infeasible or present a safety hazard provided that a risk assessment is performed and reviewed by U-M EHS.
(11) communicating with someone who is hearing impaired or otherwise disabled and where the ability to see the mouth is essential to communication; in such circumstances, alternatives such as clear face coverings and other accommodations also will be explored.
(12) giving a speech for broadcast or an audience while maintaining physical distance of at least twelve feet from
others (very limited applicability).

13) receiving a service for which temporary removal of the face covering is necessary to perform the service.

14) asked to temporarily remove a face covering for identification purposes.

15) not a University of Michigan employee and you are working in construction and only within a defined construction site closed to the public; and provided you are not within 6 feet of other individuals.
