Overview
Members of the U-M Ann Arbor student community are expected to comply with health and safety laws, orders, ordinances, regulations or health and safety guidance adopted by the University as it relates to public health crises, including COVID-19. To support the health and safety of the U-M community, a number of protocols related to COVID testing, symptom checking, and quarantine/isolation practices are required for U-M Ann Arbor campus students.

Please note that the requirements in this policy are in addition to other public health guidance and expectations set forth in other applicable policies, including the Statement of Student Rights and Responsibilities. This policy is subject to change as the pandemic continues to evolve.

Policy
This policy applies to the following U-M Ann Arbor students for the Spring and/or Summer 2021 terms:

- Students who live in on-campus residence halls, excluding on-campus apartment-style communities that include private outdoor entrances (Northwood Community Apartments);
- Students who are registered for an in-person/hybrid class, excluding students whose only enrollment is in a dissertation course (990/995) or independent study; and
- Students who access on-campus facilities and buildings, including for work or research.

Students who meet the above criteria are subject to the following requirements:

- **Weekly COVID Testing**: receive a COVID-19 test on a weekly basis. All COVID-19 testing must be administered by the University Health Service (UHS; symptomatic) or the Community Sampling and Tracking Program (CSTP; asymptomatic).
- **Daily Symptom Checking**: self-administer the symptom checker via ResponsiBLUE on a daily basis.
- **Quarantine/Isolation**: Participate and maintain isolation and/or quarantine, as instructed by a health care provider or public health officials, which may include U-M EHS.

The U-M ResponsiBLUE app will be the primary mechanism for students to verify compliance with this policy.

Exemptions
Students who demonstrate, through submission of appropriate documentation, that they are fully vaccinated are exempt from the weekly mandatory testing requirement. A person is considered fully vaccinated 2 weeks after their 2nd dose of a 2-dose vaccine series or 2 weeks after a single dose vaccine.

Sanctions
Members of the Ann Arbor student community are expected to comply with health and safety laws, orders, ordinances and regulations, and health and safety guidance adopted by the
University as it relates to public health crises, including COVID-19. Failure to comply with this policy may result in immediate action, including the implementation of interim measures needed to address public health concerns, such as termination of access to facilities. The requirements of this Policy will otherwise utilize the procedures found in the *Statement of Student Rights and Responsibilities*, and violations that occur in connection with Michigan Housing will be resolved through the Housing Student Conduct and Conflict Resolution Process.
