University of Michigan Vaccination Policy - Ann Arbor Michigan Housing

Updated: 07-05-2023

Overview

Vaccines are important and effective tools to help protect individuals and the campus community. This policy is subject to change as public health guidance evolves.

Policy

All U-M students residing in Michigan Housing on the Ann Arbor campus are required to submit documentation showing whether they are vaccinated for the following vaccinations in line with the CDC immunization schedule:

- COVID-19 vaccine
- Measles, mumps, and rubella (MMR) vaccine
- Meningococcal A (MenACWY) vaccine
- Polio vaccine
- Tetanus, diphtheria, and pertussis (Tdap) vaccine
- Varicella vaccine (chicken pox)

U-M students who are not vaccinated with any of the above six (6) vaccinations may be asked to submit an attestation that states that they are not vaccinated and understand they may be subject to additional public health protocols should there be a public health need.

The requirements in this policy are in addition to other vaccination requirements that may be applicable to faculty, staff, and students by their school, college, unit or third-party partners.

Please see the U-M Health Response Website for additional information, including FAQs.

Accountability and Violations

Individuals not in compliance with this policy may be subject to the following: inability to participate in University activities; administrative consequences; accountability actions; disease testing; and/or disciplinary procedures.
