

DANIELLE SHEEN, EXECUTIVE DIRECTOR

**U-M Ann Arbor Campus
COVID-19 Student Community Health Policy
Effective July 16, 2021**

Overview

Members of the U-M Ann Arbor student community are expected to comply with health and safety laws, orders, ordinances, regulations and health and safety guidance adopted by the University as it relates to public health crises, including COVID-19. To support the health and safety of the U-M community, a number of protocols related to COVID testing, symptom checking, and quarantine/isolation practices are required for U-M Ann Arbor campus students.

Please note that the requirements in this policy are in addition to other public health guidance and expectations set forth in state orders and guidelines and other applicable U-M policies. This policy is effective as of July 16, 2021 and is subject to change as the pandemic continues to evolve.

This policy applies to all U-M Ann Arbor students who are enrolled in at least one class that is designated with an instruction mode of in-person or hybrid.

Policy

Inform the University. All students are required to inform the University that (i) they are vaccinated for COVID-19 or (ii) they do not wish to share their vaccination status with the University.

Students who have submitted proof of vaccination through Wolverine Access and who are fully vaccinated will not be required to participate in weekly COVID-19 testing.

A person is considered fully vaccinated 2 weeks after their 2nd dose of a 2-dose vaccine series or 2 weeks after a single dose vaccine that has been authorized for use in the United States by the U.S. Food and Drug Administration or the World Health Organization. See more on [Maize and Blueprint](#) for information on which vaccines are recognized by U-M.

Students who do not submit proof of vaccination and/or who are not considered fully vaccinated are required to participate in weekly COVID-19 testing. Weekly COVID-19 testing must be administered by the University Health Service (UHS; symptomatic) or the Community Sampling and Tracking Program (CSTP; asymptomatic).

Comply with the U-M Face Covering Policy. All students are required to follow the [U-M Face Covering Policy](#).

Daily Symptom Checking. Students are required to self-administer the symptom checker via ResponsiBLUE on a daily basis. Students may be required to display the result for access to buildings and services.

Quarantine/Isolation. Students are required to participate and maintain isolation and/or quarantine, as instructed by a health care provider or public health official, which may include U-M Environment, Health & Safety (EHS).

DANIELLE SHEEN, EXECUTIVE DIRECTOR

Expectations and Accountability Measures

Members of the Ann Arbor student community are expected to comply with health and safety laws, orders, ordinances and regulations, and health and safety guidance adopted by the University as it relates to public health crises, including COVID-19. The U-M ResponsiBLUE app will be the primary mechanism for students to verify compliance with this policy.

Violations of this Policy may be addressed through the procedures found in the [Statement of Student Rights and Responsibilities](#). Violations of this Policy that occur in connection with Michigan Housing will be resolved through the Housing Student Conduct and Conflict Resolution process.
