FOOD ESTABLISHMENT INSPECTION REPORT

Based on an evaluation this day, the items marked below are violations of the Michigan Food Law. Violations cited in this report shall be corrected within the time frames specified below, but within a period not to exceed 10 calendar days for priority or priority foundation items (§8-405.11) or 90 days for core items (§8-406.11). Failure to comply with this notice may result in license suspension and/or other legal action. You have the right to appeal any violations listed.

**3-501.16**  
**Salad**  
**Salad Bar**  
Except during preparation, cooking, or cooling, or when time is used as the public health control POTENTIALLY HAZARDOUS FOOD (TIME/TEMPERATURE CONTROL FOR SAFETY FOOD) shall be maintained:  
(A) 135°F or above, except that roasts properly cooked and cooled may be held at a temperature of 130°F; or (P)  
(B) At 41°F or less (P)

**Item(s):** Cold food item(s)  
**Problem(s):** Stored above 41 degrees F  
**Correction(s):** Store below 41 degrees F.

10/2022  
Potentially hazardous foods being held cold shall be held at 41 degrees F or below to prevent the growth of pathogens.

Observed potentially hazardous foods, including sliced tomatoes and cut melon in the salad bar cold holding unit at about 46 degrees F and 53 degrees F, respectively. PIC states that the items were placed in the salad bar at 10:30 am and would be completely used before 2:30 pm.

Correct immediately by cold-holding potentially hazardous foods at 41 degrees F or below at all times. Alternately, time as a public health control may be used, but potentially hazardous foods must be visually time marked to indicate 4 hour mark from the time the potentially hazardous food items were taken out of refrigeration. At the end of the 4 hour mark of being out of temperature control, then the above foods must either be used or discarded. Additionally, written procedures must be provided that includes directions how to properly use time as a public health control and which potentially hazardous foods it will be used for.

10/4/2022  
A date marking system that does not exceed 7 days, including date of preparation, or
Item(s): In house prepared ready-to-eat potentially hazardous food(s)  
Problem(s): Without date of consumption marking  
Correction(s): Provide proper date marks as stated above.

10/4/2022  
Refrigerated, ready-to-eat, potentially hazardous food (time/temperature control for safety food) prepared and held in a food establishment for more than 24 hours shall be clearly marked to indicate the date or day by which the food shall be consumed on the premises, sold, or discarded when held at a temperature of 5ºC (41ºF) or less for a maximum of 7 days.

Observed two metal food pans with sliced deli ham and two metal food pans of housemade hummus in a reach-in cooler without date mark labeling. Other pans of salad bar toppings, such as sliced red onions, carrot slivers, etc were labeled and dated.

Do an in-service training with the kitchen staff on the importance of properly labeling and dating TCS ready-to-eat foods.

Item(s): Food-contact surface(s) equipment can openers  
Problem(s): With accumulation of debris  
Correction(s): Keep clean.

10/4/2022  
Equipment food-contact surfaces and utensils shall be clean to sight and touch.

Observed dried-on food residues on the cutting blade and surrounding surfaces of the counter mounted can opener in the kitchen. The can opener was removed for cleaning at the time of the inspection.

Item(s): Routine inspections  
Problem(s):  
Correction(s):  

10/4/2022  
The premises shall be maintained free of insects, rodents, and other pests. The presence of insects, rodents, and other pests shall be controlled to eliminate their presence on the premises by using methods, if pests are found, such as trapping devices or other means of pest control as specified under §§ 7-202.12, 7-206.12, and 7-206.13.

Observed a plastic beverage cup with plastic wrap over the top with holes in it and dried vinegar residues in the cup in the dishwashing room. Also observed a previously water logged and now buckled-looking mouse trap in a cardboard rodent station under the Salvajor disposal. The mouse trap was still "loaded", but no bait/peanut butter was seen on the trap release.
