Embody

Sitting for long periods of time is often necessary in today's world of work, but it takes a physical and mental toll. Embody addresses this common problem—and is the only chair that improves your health while you sit.

PostureFit supports your

spine at its lowest point,

your pelvis, preventing slouching and fatigue

while you sit.

BENEFITS

- Automatically conforms to the body's micro-movements, distributing body weight evenly, thereby reducing pressure and encouraging movement
- Creates physical harmony between person and technology with a tilt that supports a deep working recline posture
- The combination of a central spine, . flexible ribs, PostureFit®, and Backfit ™ adjustment set a new benchmark for neutral, balanced posture

WFH Price: \$1075

The thin but strong frame feels nearly nonexistent and offers support while flexing, so you can comfortably move your upper body.

Breathable and temperature-neutral, the continuous form of this elastomeric suspension eliminates the gap between the seat and back, conforming to each person's body to provide dynamic spinal support.

Cosm is available in one hue from top to bottom to further cement the unity of the design and the sculptural quality of the chair.
