

## FOOD ESTABLISHMENT INSPECTION REPORT

Based on an evaluation this day, the items marked below are violations of the Michigan Food Law. Violations cited in this report shall be corrected within the time frames specified below, but within a period not to exceed 10 calendar days for priority or priority foundation items (§8-405.11) or 90 days for core items (§8-406.11). Failure to comply with this notice may result in license suspension and/or other legal action. You have the right to appeal any violations listed.

**Corrected**

3-501.16		Except during preparation, cooking, or cooling, or when time is used as the public health control POTENTIALLY HAZARDOUS FOOD (TIME/TEMPERATURE CONTROL FOR SAFETY FOOD) shall be maintained: (A) 135°F or above, except that roasts properly cooked and cooled may be held at a temperature of 130°F; or (P) (B) At 41°F or less (P)	02/11/23	01/27/23
----------	--	--	----------	----------

**Item(s):** Cold food item(s) 1/27/2023  
**Location:** cooler(s) 1/27/2023  
**Problem(s):** Stored above 41 degrees F  
**Correction(s):** Store below 41 degrees F.

1/12/2023 Potentially hazardous foods being held cold shall be held at 41 degrees F or below to prevent the growth of pathogens.

Observed potentially hazardous foods, including shredded cheese and pizza sauce, ranging from 47-49 degrees F in 2-door reach-in cooler with top rail. Cooler unit is located across from ventilation hood with cooking equipment where hot air was being blown on open top rail. I advised PIC to keep top rail closed when not in use. PIC also stated that food items are moved out of the above cooling unit at 5 pm daily where they are subsequently placed into the walk-in cooler, and the 2-door cooler with top rail is shut down until the following morning around 5:00 am when food items are placed back into the unit at around 5:30 am. PIC stated that service repair order would be placed and moving forward, 2-door cooler with top rail will be left on continuously to see if that remedies the issue. PIC is aware that no potentially hazardous foods shall be placed in this 2-door cooler with top rail until it has been repaired and shown to keep potentially hazardous foods being held cold at 41 degrees F or below.

Correct immediately by keeping potentially hazardous foods that are to be held cold at 41 degrees F or below at all times.

1/27/2023

**CORRECTED:** The unit has been repaired to properly cold hold TCS foods. All foods within the unit were found to be about 38 degrees F.

5-205.15		A PLUMBING SYSTEM shall be: (A) Repaired according to LAW; (P) and	01/12/23	01/27/23

(B) Maintained in good repair.

<b>Item(s):</b>	Plumbing system drain line(s)	1/27/2023
<b>Location:</b>	hand wash sink(s)	1/27/2023
<b>Problem(s):</b>	Not maintained	
<b>Correction(s):</b>	Maintain in good repair	

1/12/2023 The plumbing system shall be maintained in a state of good repair.

Preparation Area - Observed drip leak on drain line at hand washing sink.

Correct as soon as possible by repairing the above hand washing sink.

1/27/2023

CORRECTED: The hand sink drain has been repaired and is in working order.

4-501.11	EQUIPMENT shall be maintained in a state of repair and condition that meets the requirements of the code.	07/01/23	01/27/23
Pizza Prep Area			
Pizza Prep Area			

<b>Item(s):</b>	equipment	1/27/2023
<b>Location:</b>	cooler(s)	1/27/2023
<b>Problem(s):</b>	In poor repair	
<b>Correction(s):</b>	Repair/replace.	

1/12/2023 Equipment shall be maintained in a state of good repair.

1) Pizza Preparation Area - 2-door reach-in cooler with top rail is not keeping potentially hazardous foods at 41 degrees F or below (see 3-501.16 for more details).

Correct as soon as possible by repairing the above cooler.

1/27/2023

CORRECTED: The unit was repaired to properly cold hold all TCS foods below 41 degrees F.
