6-501.111		The presence of insects, rodents, and other pests shall be controlled to minimize their presence on the PREMISES. by: (A) Routinely inspecting incoming shipments of FOOD and supplies; (B) Routinely inspecting the PREMISES for evidence of pests; (C) Using methods, if pests are found, such as trapping devices or other means of pest control as specified.(Pf) (D) Eliminating harborage conditions.	02/19/23	03/03/23
-----------	--	---	----------	----------

Item(s):	Pest(s) flies	
Location:	Dish washing Area Dish machine	3/3/2023
Problem(s):	Present in facility	3/3/2023
Correction(s):	Remove pests from facility.	

2/9/2023 The presence of insects shall be controlled to minimize their presence on the premise by routinely inspecting the premises for evidence of pests, eliminating harborage conditions, using trapping devices, and working with a pest control operator if necessary.

Observed several flies present in the facility near the dishmachine with no trapping devices present. The floor sink beneath the dishmachine was observed to be severely soiled with an accumulation of food debris, which can contribute to harborage conditions for the flies and other pests.

Correct immediately by routinely inspecting the premises for evidence of pests, eliminating harborage conditions, using trapping devices, and working with a pest control operator.

3/3/2023

CORRECTED: The floor and the floor sink beneath the dishmachine were cleaned to eliminate pest harborage conditions. No flies were present at the time of the follow-up inspection. Maintain this area clean to prevent harborage conditions.

Closing Comments:

All priority/priority foundation violation have been corrected.
