**Item(s):** equipment  
**Problem(s):** In poor repair  
**Correction(s):** Repair/replace.

3/11/2024 Equipment shall be maintained in a state of good repair.

Observed following equipment items throughout the facility that are in need of repair:

1) Main Walk-in Cooler/Freezer - Ice buildup on/around walk-in freezer door and window, which is leading to excessive condensate and moisture inside walk-in cooler, specifically on the floor. According to PIC, there is work order in place to have air curtains added and condenser unit resealed inside the walk-in freezer.

2) Right door on standing two-door walk-in cooler (located behind employee breakroom) bounces, especially when left door is closed shut, and does not tightly seal.

3) The rubber sweep/seat on the left bottom edge of the produce walk-in cooler door has torn off, leaving about a 4-5" long gap. The produce in the cooler was found at ~37 degrees, but the rubber seal/sweep on the bottom edge of the door should be replaced to ensure a tight seal.

Correct as soon as possible by repairing/replacing the above equipment items.

		<p>Observed facility does not have quaternary ammonia test strips for Ecolab's Oasis 146 multi-quat sanitizer that is being used at the 3-compartment sink in lieu of Ecolab's SMARTPOWER sink and surface cleaner and sanitizer.</p> <p>Correct immediately by providing quaternary ammonia test strips to ensure proper concentration when using it in red pails to sanitize food-contact surfaces of equipment and nonfood-contact surfaces of equipment. Use test strips regularly to ensure proper concentrations are achieved, and keep test strips in an area that safeguards them from water damage.</p> <p>CORRECTED DURING ROUTINE INSPECTION - Quaternary ammonia test strips were given for facility to use at the 3-compartment in order to effectively measure proper concentration of Oasis 146 multi-quat being dispensed into sanitizing well at the 3-compartment sink and in red sanitizing buckets.</p>		
5-205.11 Kitchen Kitchen		<p>(A) A HANDWASHING SINK shall be maintained so that it is accessible at all times for EMPLOYEE use and used for no other purpose. 	3/11/2024	<p>A hand washing sink shall be used for no other purposes other than handwashing.</p> <p>Observed the bowl of the hand sink adjacent to the coffee brewing area and across from the dishwashing area with brown stains. Staff working in this area stated they pour leftover/old coffee from events into this hand sink. There is a suitable sink for this use in the dishwashing area very close by.</p> <p>Clean this hand sink to remove the coffee stains and use the other, slightly less convenient, sink in the dishwashing area to dispose of leftover/old coffee.</p>		
	3/26/2024	<p>CORRECTED - The hand sink was observed clean at the time of the follow-up inspection and the PIC stated staff have been directed to use the nearby sink in the dishwashing counter for disposal of leftover/old coffee and other beverages.</p>
